

2008 State Director

Randy Hall

Biographical information and Background:

I am in my last semester of the Advanced Shipyard Curriculum getting ready to receive an Associates degree in Business Administration. I was selected for the Production Planning Apprenticeship after two years experience as an X31 Electrician.

Prior to getting accepted to the Apprentice school I was an Operations Specialists in the U.S. Navy. While in the Navy I worked with many diverse personalities in various teams to accomplish certain operations and missions. I was stationed in San Diego but traveled to many places such as Hong Kong, Australia, Thailand, Hawaii, Jordan, United Arab Emirates, and Singapore to name a few. I was awarded the Navy Achievement Medal for leading a Navigational team through various ports, straits, harbors, and reefs.

After completing my service in the Navy, I was told about the Apprenticeship program by my sister. It sounded good so I applied as an Electrician because I had an interest and it seemed challenging. Outside of work I am the father of two beautiful girls, Emma, age 3, and Ashlynn who was born October 4th 2007.
